

Equine Influenza

After careful consideration and upon consultation with the Society's Honorary Vets, the Pembrokeshire Agricultural Society Ltd, **strongly advise** that owners of all equines other than foals under 6 months old, taking part in the 2019 Pembrokeshire County Show have their exhibits properly vaccinated against Equine Influenza. Please consult with your private veterinary practice with regard to the correct vaccination process.

Please ensure that your horses are fit and well prior to departure to the Showground; if you have any concerns please check with your private veterinary practice. The Society **strongly advise** that all horses are vaccinated accordingly to protect their own horses and that any exhibit displaying ANY symptoms do not enter the showground.

Exhibitors are reminded that they attend The Pembrokeshire County Show at their own risk, with consideration to be given to the potential disease risks.

Please note that this guidance is subject to change. Any updates will be communicated via the Society's website & social media platforms.
